Watch your sales and profits increase through crystal-clear Crystal Seal®

In food sales, it's no secret that seeing is believing. At Placon, we know food items that are fresh must look fresh—no exceptions. That's why deli and bakery items always look their best with Crystal Seal® containers. With a variety of features that not only preserve freshness, you'll see how Crystal Seal® containers attract the eye, showcase the contents, and increase sales.

Features of Crystal Seal®

- Constructed from PETE, recycled softdrink and water bottles, the Crystal Seal® line of containers will not stress crack from fatty and oily foods.
- Recessed flat lids keep the containers upright and stable when stacked.
- A leak-resistant seal locks in food and liquids, preserves freshness, and will not pop open unexpectedly.
- A perforated hinge (on 24, 32, 48, and 64 fl. oz. sizes) allows large containers to double as serving dishes that are easy to use, attractive, and space-saving. The lid can be resealed after use to keep food fresh.
- Lids can be custom embossed to provide strong brand recognition.

Benefits of Crystal Seal®

- Maximizes shelf space with strong and secure displays, and closes the sale with eye-popping clarity.
- Compatible with all food types.
- Helps extend shelf life to ensure fresher products, reduce spoilage, and most importantly, satisfy your customers.

ecostar™

Crystal Seal® is just one product in Placon's food packaging line containing EcoStar™ food-grade recycled PETE with a minimum of 35% recycled content.

Removing the perforated hinged lid makes serving a snap. Plus, the lid is resealable which makes this container as practical as it is pleasing.

Redesigned tabs give Crystal Seal® a more streamlined look and make opening containers easier and more user-friendly.

SIZES AVAILABLE

Stock Number	Description	Dimensions LxWxH	Units Per Cases/Sleeve	Case Weight	Case Cube	Pallet TI/Hi	Cases/Pallet
CS08	8 fl. oz. flat lid	5.00" x 5.50" x 1.43"	200/ 2 x 100	10 lbs.	1.61	6 x 8	48

For virtually any retail food environment—grocery stores, delis, quick marts, restaurants, cafeterias, food carts and beyond—Placon provides thermoformed packaging products for superior performance. Efficient storage, secure sealing and exceptional functionality all play a role in our industry-leading designs. Polypropylene and PETE options mean our packaging can accommodate virtually any food product, any use, any environment. And from environmental perspectives, our EcoStar™ food-grade recycled PETE (with a minimum of 35% recycled content) is just a taste of things to come.

Ultimately, from stock designs to highly custom creations, the underlying goal is clear: Our products work hard to sell yours.

Whether you need packaging for food, medical, or retail environments, visit www.placon.com or call 800-541-1535 to request additional information about any of our product lines.
